PLAN
FY 24-25

The City of Virginia Beach exists to enhance the economic, educational, social, and physical quality of the community and provide sustainable municipal services that are valued by citizens.

MISSION

Focused and Accountable Performance

The City of Virginia Beach is on a journey to ensure that its operations and efforts are strategic and focused. The City’s FY24-25 **Focused Action Plan** translates vision and goals into an actionable strategy that guides the organization’s focus, work and resource alignment. The Focused Action Plan’s three overarching key focus areas – **Govern, Envision, Invigorate** – and underlying initiatives and performance measures allow us to be transparent about our goals, focused in our efforts, and accountable for our results.

Virginia Beach’s Focused Action Plan is a collaborative effort that is led by the City Council’s vision and leadership, influenced by community feedback obtained from various ongoing surveys, interactions, and other engagement efforts, and reflective of staff contributions.

The Focused Action Plan will be reviewed semiannually with the City Council to determine if revisions are needed to maintain its relevancy. Similarly, City staff will submit semi-annual performance reports to the City Council, and ultimately the public, to document progress on addressing the Focused Action Plan.
